

# PORTABLE POWER

**NOMAD**  
The power centre that can go anywhere.

## CUSTOMISED SOLUTIONS AND CONTRACT MANUFACTURING

The Nomad range is manufactured in New Zealand, therefore we can customise to your requirements. If you have an ongoing requirement we will create a bill of materials, give the unit a code and contract manufacture as required.

In 1999 we won the New Zealand Defence Award for our portable distribution system for their field units.

We can also manufacture customised units for construction sites, marinas, camping grounds and will attempt to provide any solution you require.
