

PDC EMERGENCY CHANGEOVER SWITCH: Power to Re-connect

- Quick and safe connection to a generator
- All active conductors including the neutral are switched to comply with AS/NZ 3000 wiring rules
- Available in single and three phase options up to 63A
- Supplied complete in a rugged IP67 Apo enclosure and appliance inlet
- Typically used in factories, rural homes, milk sheds, processing plants and any application where a power outage can be highly inconvenient or costly
- Customisation available

EMERGENCY CHANGEOVER SWITCHES

HM **Single Phase** IP65
